

Community Housing COVID-19 Guidelines have been revised.

As of June 25, 2021, providers may resume unrestricted visitation, and engage in full community outings from the residence. In addition, all fully vaccinated (fully vaccinated means two weeks after receiving second dose of the Pfizer or Moderna vaccine or two weeks after receiving the one dose Johnson and Johnson vaccine) residents and staff are no longer required to wear a mask or maintain social distance in OPWDD certified settings.

However, non- vaccinated staff and residents (if they can tolerate) must wear a mask and maintain social distancing requirements.

Non vaccinated visitors to the home will still be required to wear a mask and maintain social distance.

There is still a regulation that staff and residents wear masks (to the extent that they can) when being transported between OPWDD services.

It should be noted that residential facilities with positive cases of COVID-19 should continue to adhere to previous COVID-19 protocols.
